

REMARKS

Upon entry of this amendment, claims 1-24 will be pending in this application. Applicant has amended each of the original independent claims to specify that data received from the "one or more transaction logs" is loaded "into a single database table managed by [the] plural processing modules." Applicant finds nothing in either Muret or Tsuchida to suggest this claim element.

The amendments to the independent claims are supported by Applicant's specification, *e.g.*, at page 4, lines 7-35. The newly added claims (15-24) are also supported by Applicant's specification, *e.g.*, at page 4, line 7, through page 5, line 19.

All of Applicant's claims are allowable over the art of record. Applicant asks the Office to reconsider this application and allow all of the claims. Please apply any charges that might be due, excepting the issue fee but including fees for extensions of time, to deposit account 14-0225.

Respectfully,

James M. Stover
